He worked on numerous programs, specifically the Saturn V launch vehicle on the Apollo 11 mission, the Minuteman project, the SR71 Blackbird, and three Space Shuttles as well as many other projects that protected and advanced United States' security.

Lindsay enjoyed spending time with family. He was an active participant and supporter in his children's and grandchildren's activities and sports. He enjoyed road trips, specifically stopping at every historical marker and any notable dams. Watching his Washington Redskins football team and attending their games was always a happy time in his life. Lindsay took pleasure in his model trains and working on home repair projects for family and friends. If anyone needed a tool, he probably had it! Lindsay was always quick with a story and a smile and his favorite stories usually involved his children and grandchildren. He was a member of Church of the Servant and especially enjoyed their musical programs and volunteering there with his wife.
